PROFILE

Passionate and results-driven web developer with a solid foundation in PHP, HTML, CSS, JavaScript, React, and Node.js. Dedicated to crafting responsive, user-centric web experiences that align with business goals. Eager to contribute innovative solutions in collaborative, fast-paced environments while continuously learning and growing within the tech industry.

WORK EXPERIENCE

NLCI INSTITUTE

April 2023 - Present

Programming Coach

- Designed workshops in JavaScript, Python, and C++ to help learners solve problems hands-on.
- Created web development lessons where students built live HTML/CSS/JavaScript sites through practical, project-based learning.
- Adapted teaching methods and mentored learners in groups and one-on-one, ensuring everyone understood and felt confident.

NLCI INSTITUTE

April 2023 - Present

Web Developer & Digital Marketer

- Built and managed websites using both WordPress and custom HTML/CSS/JavaScript/PHP, focusing on smooth user experience and SEO-friendly setup.
- Ran agile marketing campaigns, including SEO work and Google/Facebook ads, to steadily grow traffic.
- Created social media content, managed ad spending, and monitored performance to improve outreach with a smart, data-driven approach.

Emson Gears Limited

July 2022- March 2023

Purchase Assistance

- Assisted in ordering supplies by tracking stock, preparing purchase orders, and coordinating with vendors to ensure timely deliveries.
- Kept accurate records of orders, invoices, and supplier details, helping the team control costs and manage budget effectively.
- Researched and evaluated vendors, compared prices, and followed up on shipments to resolve any delays or discrepancies smoothly.
